

## Technology Forum large format 21 May 2010

### Productivity in grand style: ROLAND 900, XXL perfector.

Does your job structure put you in the industrial-scale printing category? If yes, let us show you a world premiere: the ROLAND 900, XXL perfector with a maximum sheet size of 1,310 x 1,870 mm.

Especially in publications printing, efficient production is essential. Our print-technical innovation is groundbreaking: excellent printing quality ensured by OptiPrint jackets. A high level of automation with intelligent solutions such as the ROLAND InlineSheeter at the feeder, the ROLAND InlineColorPilot before and after the sheet turning station, and the ROLAND InlineSlitter for efficient finishing.

Come and see our latest technological achievement at Technology Forum large format. Witness this innovation for yourself in an impressive live demonstration.

### Agenda

- A new dimension in efficiency
- A look at the technology
- Live demonstration of an eight-color ROLAND 900, XXL perfector

### Registration via E-Mail
