

## Technology Forum autoprint smart 26 May 2010

### **Optimize processes, increase automation.**

Do you want to increase your efficiency and produce on an industrial level? Then this Technology Forum is bound to show you new ways to achieve this.

Our autoprint concept encompasses intelligent and groundbreaking automation and operating features.

Find out more about autoprint at the Technology Forum autoprint smart on 26 May 2010. With a printing demonstration on a ROLAND 700 DirectDrive you can experience the first step on the way to fully-automated sheetfed printing.

### **Agenda**

- Vision “autoprint”: what do we want to achieve?
- “autoprint smart”: where do we stand?
- Live printing demonstration: what can we do already?
- autoprint preview: where does the journey lead to?

### **Registration via E-Mail**

The Technology Forum autoprint smart takes place 26 May 2010 from 11 a.m. to 2 p.m. at manroland Print Technology Center in Offenbach. The participation is free of charge. Travel and accommodation costs if applicable to be borne by the participant. Register to Technology Forum via E-Mail to [productmarketing@manroland.com](mailto:productmarketing@manroland.com)
