

WEB PRESS PRINTVALUE PROMOTION JULY 2010

## Dustcontrol Parts & Service

# Ensure Uptime, Avoid Costly Breakdowns Maintain Your Press & Environment

### Lowest Prices for Parts & Service

How long has it been since you changed your filters or maintained your dustcontrol system? For the month of July, manroland has partnered with Dustcontrol® to offer our web press customers 15% off service and 10% off spare parts for installed Dustcontrol® systems.

With our factory certified service, you will ensure uptime of your systems and reduced cost of ownership through targeted system maintenance. Without the appropriate maintenance to both mobile and stationary high vacuum extraction systems, air cleaners, suction casings, and recycling units, systems can overheat and fail, costing a significant amount in repairs and press downtime. Add the value using factory certified parts, and you are guaranteeing optimal system performance!

**Call us today to find out more about this offer!**
