

SHEETFED PRINTVALUE PROMOTION MARCH 2010

Wash-Up Brushes

Quality Brushes at New Reduced Prices Let our printers show you the way.

Free Print Instructor for a Day!

In today's world of shrinking profit margins, productivity is more important than ever. manroland's printcom consumables are taking bold steps towards process improvement. This month, we're focusing on improving wash-up system functions.

Fresh wash-up brushes operating with the optimal performance of printcom wash products are proven to save as much as 35% in wash purchases and even more in waste removal.

printcom has responded to the printing industry's needs with new reduced pricing on wash brushes - with a bonus. During March 2010, manroland is offering a complimentary visit from a manroland certified master print instructor to optimize your wash system.

Simply purchase 6 or more wash brushes together with any printcom wash product to take advantage of this great offer.

Our Promise to You:

Each printcom component has been precisely manufactured to meet press tolerances, and carefully designed to hold up to corrosion and wear characteristics. Use of these products will ensure efficient production and will preserve the life and value of your press.

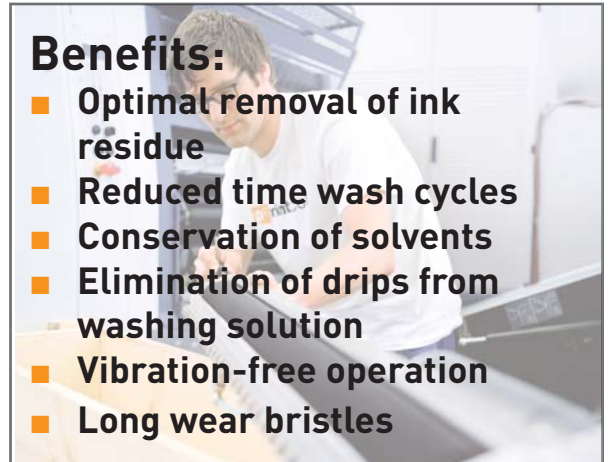

Ask us about our printcom Performance Guarantee!

Benefits:

- Optimal removal of ink residue
- Reduced time wash cycles
- Conservation of solvents
- Elimination of drips from washing solution
- Vibration-free operation
- Long wear bristles
