

TRAINING

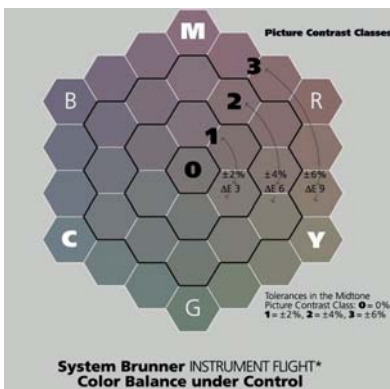

# Color Control and Standardization: Level 1

## Give your team the tools to match proofs to reality

**Structured training focused on higher quality, higher productivity, and increased profitability through color control.**

With manroland's Color Control and Standardization Training Course, you will match press proofs in record time. Our process examines your operations and printing consumables to ensure all are working in unison to meet the requirements of your most demanding customers.

### Examining all areas of the process

Day 1 (4 Hours):

- Time on press to check basic settings and press conditions to facilitate the training

Day 2 (8 Hours):

- Overview of Process
- Digital Workflow Settings
- Proof System Settings
- Set up Print Job
- Print Job

Day 3 (8 Hours):

- Evaluate Dry Sheets
- Set up second print job
- Print second job
- Evaluation of printed sheet
- Calibrate CTP
- Print second job with new plates
- Set up third print job
- Print third job
- Make final adjustments
- Identify Items for follow up ■■

Press personnel will be involved in this hands-on training process, and will be able to perform the necessary procedures as needed in the future to maintain the press and prepress calibrations.

#### Advantages

- Quicker makeready times
- Ability to match proofs
- Optimized setting within prepress and on the press
- Reduces makeready and production waste
- Increased quality
- Improved gray balance
- Optimized utilization of PrintConsult
- Reduces customer complaints

#### Remarks

This training program is geared toward customers seeking to utilize optimized gray balance. This training is highly recommended for those planning to use manroland's PrintConsult or okBalance products.
