

fount S 220P

For Higher Quality In Offset Printing

Print quality and profitability are directly related to the choice fount concentrate.

Application

printcom fount 220P is a one-step fountain solution formulated for use on manroland printing presses. This exceptional product is also suited for all types of continuous dampening systems of alternate manufactures. It is formulated to eliminate the need for alcohol or additional wetting agents.

Fill the dampening system with water, add 4-6 oz./gal. of printcom fount S220P

Advantages

- Fast and stable ink/water balance
 - Reduced ink roller running dry through effective reduction of calcium deposits
 - Superb plate protection for high
 - Non corrosive and non -dampening to bearings
 - print run stability
 - Excellent corrosion protection
 - Fast running clean-up of the plates
 - Constant print quality due to optimum-water distribution
 - Trouble-free press re-starts
 - Stable pH value even with changing-grades of paper
 - Gentle on printing plates for high print run stability
 - Superb plate protection even during-press stops
 - Reduced ink roller running dry through effective reduction of calcium deposits
 - Longer wash intervals
 - Certified corrosion protection
- fount S 220P

In addition to chemical routine analyses such as measuring the fountain solution's conductivity and pH-value, additional tests, including emulsification and swell tests, are conducted in the manroland laboratory to best assess possible interaction with the press.

printcom stands for "print competence" and represents manroland's offering of process-compliant system components for the printing industry. Customer satisfaction is our top priority, and the printcom team is here to serve you.

Technical Data

Dosage	4 to 6 oz./gal.
pH-Range (relating to the diluted product, depending on the water quality and dosage)	4.65
Water Hardness	soft to hard
Hydrogen Carbonate Content	no restrictions
Specific Gravity (Water = 1.00):	1.075
Corrosion-resistant	yes
Drying Agents	no
CtP Plates	suitable for most CtP plates
Color	amber
Solubility in Water	Not Available

Certificates and Approvals

For a current list of certificates and approvals as well as possible restrictions, please refer to www.fogra.org!

Certified by or according to FOGRA	pending
manroland Sheetfed	yes
manroland Heatset	pending
manroland Coldset	pending

Packaging Units

All packaging units are non-returnable, returnable containers are available upon request.

Pails	5 gallons
Drums	55 gallons
Totes	330 gallons

Transport and Storage

cool and dry, protected against freezing

Labeling

Xi - irritating
