

plate cleaner 209A

For Higher Quality In Offset Printing

Print quality and profitability are directly related to the choice system components.

Application

The printcom plate cleaner 209A is an abrasive-free, liquid cleaning and conditioning agent for negative-working and baked positive-working conventional and CtP plates, both new and stored.

It quickly and thoroughly removes paper dust and oxidation, reliably desensitizes scratches and sustainably regenerates both the water-bearing areas of the plate and the ink receptivity of its image.

Advantages

- Quick and thorough removal of paper dust and oxidation
- Lasting regeneration of the printing plate
- Bio-degradable
- Non-flammable

manroland's Research and Development departments continually focus on achieving optimum synergy between the system components, printing plate and prepress chemicals. Thus providing the ultimate conditions to maximise the workflow, increase productivity and enhance the expertise of workmanship.

printcom stands for "print competence" and represents manroland's offering of process-compliant system components for the printing industry. Customer satisfaction is our top priority, and the printcom team is here to serve you.

Technical Data

Composition	liquid
Color	yellowish-green, transparent
pH-Value	12 to 12.5
Specific Gravity at 20 °C	1.017

Directions for Use

Use printcom plate cleaner 209A on a clean sponge, cotton wipe or cheese cloth to thoroughly clean the printing plate. Rinse with fountain solution. Should the image on the plate be affected, printcom plate cleaner 209A can be diluted with up to 50 % water.

The same procedure can be used to prepare plates for storage.

When using printcom plate cleaner 209A, please observe the safety instructions on the product label and material safety datasheet as well as the relevant regulations for the prevention of industrial accidents and other applicable rules!

Packaging Units

All packaging units are non-returnable.

Bottles	1 quart
---------	---------

Transport and Storage

cool and dry, protected against direct sunlight and freezing

Labeling

Health	1
Flammability	0
Reactivity	0
Protection	B
