

SPARE AND WEAR PARTS,
MAINTENANCE & SERVICE CONTRACTS

Spare Parts

Spare parts à la carte

Supplying your printing system with original manroland spare parts.

We can supply you with compressed air cylinders, film rollers, web guide rollers, and all other spare parts needed for your printing system from a single source.

We replace parts you need in a professional manner. It may also be possible for us to supply you with a reconditioned part from our pool on an exchange basis.

Various forms of delivery are possible, from single items to standing orders – whatever suits you best.

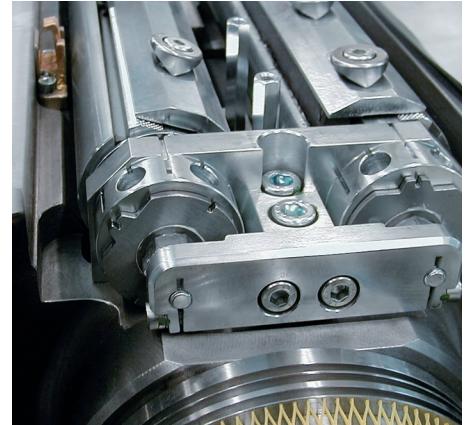

Together we can analyze your spare parts requirement and work out the most economical solution for you.

Within the scope of a service contract there are different possibilities for supplying spare parts. ■■

Advantages

- Production security through the quality of original manroland parts
- Everything from a single source simplifies administrative procurement
- Favorable package prices
- Spare parts readily available
- Calculable downtimes
- Permanent adaptation to the latest state-of-the-art
- Individualized delivery arrangements with the possibility of fixed pricing over the entire duration of the service contract

Service Package	Annual package	Subscription	Kanban	Classic
The "Spare Parts" service package contains all spare parts you need for your printing system	Together we define your annual needs which you receive in one delivery with terms of payment to be agreed upon e.g. installments.	You define a spare parts package to be delivered to you regularly e.g. every quarter.	Our local organization permanently replenishes your stock in accordance with the level you nominate (on request).	You order individual parts as needed.
